

Hazard Spotter Mission Briefing

Because every great adventure begins with being prepared!

MISSION OBJECTIVE

Every home has potential hazards, but many fires are **easy to prevent** once you know what to look for.

Work together to identify anything that could start a fire or make it harder to escape during an emergency, then discuss simple ways to make your home even safer.

Find at least 5 hazards!

WHAT YOU'LL NEED

- ✓ Notebook
- ✓ Pencil
- ✓ Observation skills
- ✓ Thinking caps

Be sure to write down hazards that can't be fixed right away!

INSTRUCTIONS

 **Choose** which part of your home you want to examine today!

 **Think** about what fire or escape hazards you should look for and talk about different ideas with your family.

 **Explore** your home.

 **Fix** any hazards you can with an adult.

 **Write** down any hazards you can't fix right away!

GROWN-UP TIPS

- Don't feel pressured to conquer your whole home in one day! Feel free to try **one room at a time**.
- Let your kids lead the way! If they point out a hazard, ask them **why** they believe it's dangerous before explaining the answer.

Read. Practice. Discuss. Repeat.

BONUS CHALLENGE

Hazard-Free Room Challenge

Can you find one room that doesn't need any improvements? If not, work together to make one room **hazard-free**.

FIRE SAFETY TIP

Keep anything that can burn at least **3 feet away** from stoves, fireplaces, and space heaters.
